The Fight Between Harrison and the

The President's Followers Nod—Blaine

Booms Enthusiastically—Hank Wag-

ner's View of the Political

Situation at Minneapolis.

By Telegram to the Times.

MINNEAPOLIS (Minn.) June 5.—[Spec-

ial.] It is pouring down rain tonight,

but the dampness does not serve to cool

off the seething statesmen who are here

making the lobby of the West Hotel as

noisy as a grain pit with their howls

and counter howls for Blaine and Har-

risson. The resignation of Blaine from

the President's Cabinet has scarcely

cleared the atmosphere so much as

it was thought to have done when

first announced. The Har-

risson men are persistent and

noisy, and tonight in the hotel lobbies

are raising all the old charges against

the Maine man that were made use of

during the first Cleveland campaign.

The charge that he is under Catholic

domination is made especially promi-

nent. His supporters laugh the Har-

risson men to scorn, declaring that

the situation puts the Indiana man out

of the running, whether Blaine is in it

or not.

BLAINE OR A DARK HORSE.

I have been here but a few hours, but

from all I can gather, the Plumed Knight

is going through with a rush or the

nomination will go to a dark horse,

more than likely McKinley.

The California delegation got in at 4

o'clock this afternoon and created a

sensation when they marched up to

their headquarters in the Masonic

Temple bearing tri-colored pampas

plumes, headed by a diet of brass bands.

The delegation is hopelessly divided,

Spence says, equally between the two

leading candidates, but the Blaine men

say that two-thirds will be for "Old

Magnetism."

WHAT THE CALIFORNIANS ARE DOING.

George Knight is wild-eyed for the

Maine man, but as the Californians have

not yet caused he does not feel free

to yell, as he hopes to be able to after

10 o'clock tomorrow, when there will

be a round-up of the Westerners.

Senator Felton is working hard for

the President, with De Young "fer-

rinist" him on general principles, as

might be expected.

M. M. Estee has just come rushing

into the tavern kept by Mr. West, tug-

ging at a large grip and bearing innum-

erable rain splashes on his wide white

hat. As it is lightning like the mis-

chief, Estee no doubt thinks he may

get struck with a Vice-Presidential

bolt, but it will hardly occur before he

gets that canal dug down in Nicaragua.

George C. Gorham drifted in this

evening and is proselyting for the In-

diana congressional club, but George is

rather a back number and will hardly

POINTS OF THE MORNING'S NEWS.

BY TELEGRAPH.

The situation at Minneapolis indicates

that the nomination will go to Blaine or to a dark

horse, McKinley being the most prominently

mentioned in the latter case. Another

highlander murder has been committed

at San Francisco. San Jose and Los

Angeles were winners in the ball

games. Creede, Colo., has been nearly

wiped out by fire. A prominent resident of

Orange county dropped dead. There are no

tidings of the missing San Joaquin County Re-

porter. A great snowstorm is raging in

South Dakota. Little business will be trans-

acted this week in Congress.

IN AND ABOUT THE CITY.

War to be made upon disreputable re-

sources. A "bad priest" working in this di-

rection. A tough hackman runs away with

another man's wife. An important decision

by a Santa Paula justice. World's Fair

notes. Services at the various churches.

delegates will sit immediately in front

of the chairman's platform. Between

the central columns on either side it

has been festooned with the national

colors. The folds of the flags are divided

and held in the talons of an American

eagle. In the rear of the platform the

same decorations prevail, but on either

side the columns have been surrounded

with gold, displaying sheaves of

wheat, on which is perched an eagle.

Suspended from pillars skirting seats

assigned to delegates are the shields

and banners of the various states.

As the chairman faces the audience

the arms of the State of New York will

be on his right and next to the Empire

State is the Pennsylvania motto. Then

follow to the right the arms from Ver-

mont, Alabama, South Dakota, Missouri,

Massachusetts, Illinois, Wisconsin,

Michigan, California, Virginia, Mary-

land, Georgia, Maine, Indiana and Ohio.

In the rear of the above the arms of

other States are exhibited. Delegates

at-large, national committeemen and

alternates will be readily recognizable.

The arrangements of seats assigned to

spectators surpass those of any other

convention.

It is thought that the audience which

will attend Monday's concert will be

the most interesting congregation of

persons ever assembled in this country.

The convention building will be

equipped with a restaurant and diverse

commercial facilities for the comfort of

delegates and newspaper men in the

rapid transmission of news.

AT WASHINGTON.

Blaine Warns His Friends Against Bogus

Interviews With Himself.

WASHINGTON, June 5.—Blaine spent

the day quietly at his home. He re-

ceived a few calls from personal friends,

but admittance was refused all others.

Efforts to interview him were equally

unsuccessful. Blaine has, however,

sent to the Associated Press an auto-

## CRIME AND CRIMINALS.

## War to be Made on Disreputable Saloons.

The Matter to be Laid Before the Supervisors This Morning.

## One of the Results of Last Week's Disgraceful Disclosures.

Rasmus, the Lame Hackman, Runs Off With Another Man's Wife—A White Man Arrested for Smoking Opium—Petty Offenders.

The results of the disclosures in the recent Perical case, when it was shown that several young girls, mere children, in fact, had been debauched by unprincipled scoundrels at the disreputable resort of old "Mother" Brown, are likely to be more widespread than was at first expected. It is more than probable that some action will be taken by the District Attorney's office in the cases of McDermott and Green, and in case they are locked up it is believed that other arrests will follow. Not only this, but the Board of Supervisors will appear before the Board of Supervisors and present evidence in regard to the Brown place, which will probably result in the license for that dive being revoked. Mr. Wright has also secured a list of the saloons where these children were allowed to remain and where they were supplied with beer and liquor. Several of these saloons are registered rendezvous for the girls, and here they met the men who were the cause of their downfall. Mr. Wright will also appear before the Police Commissioners tomorrow and lay the evidence he has secured before them, at the same time asking for an official investigation, and of the facts alleged can be proved, the humane society will ask that the license for these places be revoked.

Altogether it looks now as though something practical will be done in the way of shutting up several places which have long been a disgrace to the city.

## RASMUS HAS DECAPED.

The Little Club-foot Man Away with Another Man's Wife.

Rasmus, the lame hackman, who has been trying for some time past to distinguish himself, has at least succeeded, and the places that knew him once will know him no more, for the little club-footed jehu has shaken the dust of Los Angeles from his well foot, and his best friends do not believe he will ever show his ugly little face in this city again. He has run off with another man's wife, and the outraged husband is now revelling in his loss in anything but a humble manner, and this is the way the romance in low life leaked out.

It will be remembered that Rasmus is the fellow who was shot in the neck a few months ago, and the meanness in his composition is the only thing that kept him from crossing the dark river at that time.

Rasmus possessed a wife in those days, and as he did not care to be a standard of many beauty, etc., he sought the sympathy of another, and that other was a man named Sinton. For a time the guilty pair met in secret, but their success was revolved, as is always the case under such circumstances, and Rasmus was made acquainted with his wife's doings.

One evening Rasmus and Sinton met at a spring street car, and the latter forthwith drew a large revolver and shot Rasmus in the back. This ended the fight as far as Rasmus was concerned, and he was carted to the central station, where his wound was dressed, and after a long siege the doctor pulled him through.

The fellow's wife then got a divorce and nothing more was heard of Rasmus until a few weeks later, when he branched out as a "man-of-war." He devoted his attention to little girls under 14 years of age, and his doings were reported to the police and humane society, but the deformed rascal managed to cover his tracks so thoroughly that the law was unable to get him in its clutches, much to the sorrow of humane society.

Rasmus's last escapade has put him out of the reach of the Los Angeles officers, but it is more probable that he will get in some kind of a row in the near future wherever he goes.

For a long time past John Ordley and his young wife have lived in a neat little cottage on the corner of Commercial and Broadway, where he works for the Philadelphia brewery, and is an honest, hard-working German, who attends strictly to his own business, and when he is not attending to his duties at the brewery he is at home. His wife is a handsome German girl of 23 summers, and up to last Friday she seemed to be perfectly satisfied with her home.

Early last Friday morning Ordley left for his work, and in the evening he returned home and found his house deserted. An inspection of the house showed that his wife had deserted him in earnest.

Her clothing, as usual, and the rest of her belongings had been removed, but he left no word other than a note saying that she had grown tired of California and intended to return to Germany. As Ordley had been in the habit of turning every dollar of his salary over to his wife, he was surprised to find that she had taken all their little savings.

His suspicions proved correct, for an investigation showed that a few hours before she left she had been working from the bank and left her hard-earned money in the hands of a man who was not directly interested in her, and it is supposed that they are now here.

Ordley is all broken up over his wife's treatment, and if there is any chance he will bring them back and prosecute them for grand larceny for stealing \$100.

## A "NICE PILL."

Joe of Lem Yon's White Whiskies Are, rested for Opium Smoking.

It is a well-known fact in criminal courts and among officers that the Chinese will buy testimony among their own people on every occasion. It is seldom that straight evidence is ever given in a Chinese case, and it can be safely said that every witness who is not directly interested has been bought and paid for by the party to whom his testimony favors. This tale of affairs is so common that courts and juries pay but little attention to Chinese testimony.

As a general thing John, who devoted himself to his own people for testimony, it looks now as if he has decided that it is necessary to go among the

## DEATH IN WATER.

The Millions of Dollars Water Contains and the Way They May Be Won.

Many people have an idea how impure even the purest drinking water is. The very best water known to man is full of germs. There are the most prolific creatures of which we have any knowledge, for a single one may be the cause of death to a score of millions of people. They are also possessed of great vitality, for they can be carried great distances in water, and they can live for a long time without food. They are also very numerous, for there are billions of them in a single drop of water.

There were no new developments in the postoffice burglary matter yesterday. The police are confident that the gang who attempted the robbery are professional crooks who go for big game, and for that reason people who keep a large amount of money or valuables in their safes should be careful for some time to come.

There were two bad drunks landed in the City Prison yesterday. They were generally good characters on board, but were so busy looking after the back doors of saloons under the Police Commissioners' new rules that they did not have time to attend to the howling hoodlums who got drunk at the beach and returned home early in the afternoon.

It has been suggested that during the summer season it would be a good idea to have a special officer or two on the Sunday trains to the beach. There are generally good characters on board, but the passengers more or less annoyed by their boisterous conduct, etc., and to make an example of a few of them early in the season would be a good thing.

## A BAD PRIEST.

A Dangerous Man Now Operating in Southern California.

He is Believed to be Molo, Who was Arrested San Francisco for Swindling—Last Heard from at Camulos.

About the middle of last April a man calling himself I. F. Molo, and representing himself as a Catholic priest, was arrested in San Francisco. He was a handsome man of about 50 years of age. He was when arrested, dressed in a plain black frock coat, and wore nothing to indicate that he was a priest. About a month previous to his arrest Molo went to Waldfuehl's store and purchased a quantity of art furnishings to the value of \$200. He was a small, dark man, with a high forehead, and a long nose. He was dressed in a suit of black cloth, and was wearing a white shirt and a black tie. He was a very clever man, and was able to pass himself off as a priest. He was a very dangerous man, and was believed to be Molo, who was arrested in San Francisco for swindling. He was last heard from at Camulos.

The young man learned that the priest was located at Boca, and went to that place. There he found him in charge of a small congregation. The altar of the church was adorned by the very articles that had not been paid for. Waldfuehl, Jr., arrived just as Molo was celebrating mass, and without waiting for him to finish, walked up to the altar, leveled a pistol at the minister and at the same time declaring that unless the balance of the amount due was paid forthwith he would shoot. Molo, of course, not suspicious of any such thing as that taking place, and not having the amount of certificates in his pocket, remonstrated. He succeeded in inducing the sacrilegious young collector to retire into the vestry to discuss the affair.

Once out of the vestry, he quietly took the pistol away from the youth, and going outside told his curious parishioners of the indignity that had been thrust upon him. His listeners became so angry at Waldfuehl that they began to talk about lynching him and he was forced to leave Boca. But Father Molo told his congregation that he feared his usefulness had been greatly impaired by what had occurred, and he was hiding them going by the took the first train for Sacramento, where he was arrested on a warrant sworn to by Waldfuehl.

Molo was interviewed on his return to San Francisco, when he insisted that he was a priest, and that he had been ordained in France, but declined to state to what order he belonged, or to give any information about himself, and as most of the goods he secured were recovered, he finally got out of the city.

It was ascertained, however, that Molo had, under various aliases, been working the same game on the upper coast, and had victimized a number of people. He disappeared from San Francisco, and was supposed to be heading down the Coast the clergy were warned to look out for him.

At Camulos.

About the first of the month a strange priest put in an appearance at Camulos. He gave his name as Father Lorens, and acted in such a manner as to arouse suspicion. A full description of the man has not been obtained, but it is believed that it is Molo. On Saturday Señora del Valle telegraphed Bishop Mora, telling him that Lorens, as he called himself, was there, and asking what was to be done. The bishop promptly replied that the man was a fraud and an adventurer, a bad priest who had been suspended, and that he was not allowed to celebrate mass.

He was received to the Bishop's telegram, but it is more than probable that on its receipt the hospitable doors of Camulos were closed to the impostor, and he was sent on his way. He is now probably headed in this direction, and is very likely to be a danger to the people.

AMUSEMENTS TONIGHT.

AT THE OPERAHOUSE—The Gosselin.  
AT THE THEATRE—Louis XI.

"Blaine and McKinley" would be a good enough warcry for the Republican party.

Now everybody will sort of hold his breath and listen for something to drop at Minneapolis.

The resignation of the Secretaryship by Blaine was the first real bombshell in the Presidential controversy. Look out for another to explode tomorrow or the day after.

We shall soon know whether the plumes which the California delegation bear with them to Minneapolis as their insignia have any special significance. They will probably wave for the "plumed knight."

About 2,000,000 copies of the Congressional Record containing the reprint of Henry George's single tax book will be sent through the mails under the frank of Congressman Thomas L. Johnson of Ohio. The whole thing is the most gigantic abuse of Congressional privilege ever attempted.

There is no gaudier campaign than Dr. Parkhurst's campaign waged against the vice of New York which Tammany has so long winked at and is suspected of profiting by. He has had a salary effect. Since the sentence of the notorious Hattie Adams the number of the quality of vermin to which she belonged has decreased in that city not less than 50 percent. The New York Herald is responsible for this statement.

The New York Herald has been telegraphing to the Republican delegations for a statement of their attitude on the Minneapolis candidates and platform. The Herald figures up from replies received that Harrison has 866 delegates, Blaine 265, while outside of a few scattering votes for others the number of doubtful is 238. The delegates are solid in favor of the McKinley tariff, while only 73 of the 988 delegates want free coinage.

A correspondent who wants to be funny and mathematical at the same time figures it out that, if THE TIMES publishes from 10,000 to 12,000 words a day in its report of the Minneapolis convention, as promised, it will involve a great waste of time on the part of those who will be impelled to read it. He says: "An ordinary reader will cover 300 words a minute. Hence he will be forty minutes in reading your 12,000 words. Forty minutes each for your 100,000 readers equals 4,000,000 minutes, or 66,666 2/3 hours, or 2777 days, or nearly eight years. Just think of it! Spare us!" Our correspondent evidently forgets that there is no law obliging him to read the report and that he may devote forty minutes to it or not, just as he elects. The chances are however, that he will follow it to the last word and growl because there isn't more. Some men will growl when they have to go to heaven.

It is a day of extraordinary salubrity back East when it does not have a tornado, a cloudburst, a flood or a blizzard in some section. Sunday morning's telegrams told us of a blizzard in Wyoming and of the rising of the Western rivers, threatening further floods. This morning's news deals with a cloudburst and flood in the regions of Pennsylvania, with the supplement of disaster by fire. The storm belt of the United States is suffering a visitation which will make this a marked year in the annals of meteorology. To say that these violent outbursts of the elements are due entirely to chance is the sheerest folly. There are great overruling causes at work which bring this epoch of disaster, and some day science will be able to tell us just what those causes are. Advocates of the planetary system of meteorology say that the present series of mishaps are due to the magnetic and electrical perturbations from an equinox of Saturn and an equinox of Jupiter happening in close succession, and that we may look for even more violent disturbances next year than this.

The man Crandall, who was arrested in this city some time ago on the charge of defrauding several life insurance companies, has been identified at his home in Buffalo, N. Y., and, no doubt, will be tried and convicted. A dispatch published yesterday states that he is prostrated with the nervous shock. Crandall is a very forcible illustration of the fact that crime furnishes a hard road to travel. Since his supposed death by drowning in the Niagara River Crandall has been an outcast and an exile from his home and family. During a portion of his residence here he was glad to find refuge in the county hospital. He received none of the insurance money which was paid on his life, and while here, he was poverty-stricken and out of health. His miserable fate should be a warning to all men who under the pressure of crooked reverses are tempted to adopt a crooked course. It would really have entailed less misery on Crandall and his relatives if he had cast himself into the Niagara River and gone over the falls instead of pretending to do so.

Bright Prospects.  
C. P. Huntington informs the New York Mail and Express that the Southern Pacific Railway Company proposes to expend from \$4,000,000 to \$5,000,000 in the extension of the coast line from Santa Barbara to Santa Margarita and in other improvements in this State.

The Santa Fe Company proposes to put out \$5,000,000 or \$10,000,000 in extending its line from Mojave to San Francisco and the Terminal people are no doubt contemplating a transcontinental connection. The work on Prof. Lowe's mountain railway is going forward, and the early completion of at least a part of the line is promised.

There are numerous other projects of greater or less magnitude in hand, and altogether, California promises to be the scene of the greatest railroad construction in the United States for the next year or two. All this is the harbinger of good times. So much money distributed to laborers, material men and producers is certain to find its way into the channels of trade, restore confidence and make people prosperous and happy. California may as well prepare for the greatest era of development in her history, and possibly another boom, to set in after the conclusion of the World's Fair.

It is estimated that about 1,000,000 Canadians have come across the border and annexed themselves to the United States within the past decade.

AMUSEMENTS.

AT THE PLAYHOUSES.

Attractions Tonight.—At the Los Angeles Theatre William John Kohler will make his initial appearance before a local audience as Louis XI, a role to which he has devoted considerable study. The play will be staged in a most elaborate manner, and a performance of unusual interest is assured. Several local celebrities are included in the cast, and judging from the advance sale tickets, a large crowd of theatergoers and admirers will doubtless be in hand to witness and encourage their efforts.

Carroll Johnson will commence a three-night engagement at the Grand in Edward E. Kildee's comedy-drama, "The Gosselin," which is said to be a novelty of unusual merit. A full house is already assured, and a hearty and successful reception is accorded to the ex-minstrel this evening.

POLITICAL POINTS.

It is announced as probable that ex-Congressman John M. Langston, a colored man, will be the secretary of the National Republican Convention.

Cleveland and McKinley should carry the standards of their respective parties in the fall campaign. If the tariff is to be the battle cry.—(Julian Sentinel.)

The 10,765 votes cast at the Cleveland primaries in New York were more than an average at the ordinary primaries of either party. Tammany begins to think something serious is in the air.

The Democratic papers are busy fixing up a ticket and platform for the Republican convention to the neglect of similar work for their own convention later on. And they are right. It is the Minneapolis and not the Chicago convention that will do the bidding for the country.—(Cincinnati Times-Star.)

Epitomized, the situation is simply this today: If Blaine will accept he will, beyond any question, be nominated; if he is not, the nomination will go to Harrison, the nominee. After these come Sherman, Sherman and Alger, preferred by the people probably about in the foregoing order. These are all good, strong, capable men, with any one of whom Republican victory would be assured.—(San Diego Union.)

The Liverpool Journal of Commerce has the long-range opinion that the next election in the United States will give the country a Democratic Senate and President "only too anxious to carry out a policy of free trade." But it tells its readers not to expect it at once, for there are vast interests involved, and it must necessarily be true that a very long time will elapse before the United States and Great Britain are perfectly at one on this important matter.

LETTERS TO THE TIMES.

LOS ANGELES, June 5.—[To the Editor of THE TIMES.] The communication signed "Common Sense" was dropped into the "Letter Bag" of the Sunday Herald, was evidently written for the purpose of displaying the writer's lack of information on the subject of who controls the removal of the postoffice from its present site to the new Government building on Main street. FLOOD AND FIRE.

[Continued from first page.]

In the upper part of town about 100 dwellings were destroyed by fire, and owing to the depth of water the fire department was helpless. This part of the city was blockaded by lumber sheds and the roofs of houses which were carried down. The sight from the hills above the town was awful, and beyond description.

The loss of property is estimated at from \$750,000 to \$1,000,000. Up to the present time fifteen to twenty bodies have been recovered and identified. The third ward is as level as a field. The following is a list of the dead as far as identified: William Shafer, John Reinbold, Charles Miller, Miss Minnie Russell, Daniel Sullivan, James Holmes, Mrs. William Bridge and three daughters, William Morgan of Oil City, Ed Keating, Mr. Terwilliger, Mr. Baker, Sheridan Wick, John Rouch and son and Mr. Eakin and two sons.

Two sons of Dr. Hasek were seriously injured. One of them, Hansfrits was badly burned and cannot live. Five children were badly burned.

Nine tanks of the Imperial Refinery Company on Oil Creek are now burning. It is reported that Sam Yeager of Roseville saved his life, twenty-five people located down the creeks. He used a boat during the high flood and great praise is due him. Nothing can be heard from Titusville here as yet. Burning material can be seen down the river a mile below the town.

Forty-eight bodies recovered.  
On City, June 5.—[By the Associated Press.] At 2 a. m. forty-eight bodies have been recovered in Oil City, but it is impossible to give an accurate estimate of the total loss of life. No communication between this city and Titusville since 6 o'clock last evening. The loss of life is estimated to exceed 100. The tank owned by the Pennsylvania Refining Company on Seneca street is in danger of exploding at writing. It contains 25,000 barrels and if it catches fire will wipe out the entire upper part of the town.

Additional names of those known to be dead are: Edward Mills and four children, Mrs. Copeland and baby, Mrs. Levi Fitters, Mr. and Mrs. Hawks and daughter and Matthew Lyons, wife and two children, John O'Leary and mother, Frank Plank, James Rogers, James Haskins, William White, John Steck, John Rambo, Humphrey Stewart, William Stewart, Frank Holmes, William Malone, Frank Watson, W. L. Daugherty and others.

There are fifteen bodies at the undertaking rooms of Britting, McCracken & Co., twenty-five at the city hall and a number were taken to their homes. Still a number are missing.

THE TITUSVILLE CALAMITY.

Blazing Oil Sweeping Through the City.—Death, Fire and Flood.  
TITUSVILLE (Pa.) June 5.—[By the Associated Press.] The city of Titusville has been visited during the past twenty-four hours by one of the most disastrous fires and floods in all the history of the region. Oil Creek overflowed its banks and for hours swept through the city in the proportions of an almost resistless flood. The city is without fuel or light, and the water works are surrounded by water. The Perry street and Franklin street iron bridges were swept away. Scores of cheap dwellings in the lower part of the city were destroyed and a large number of lives were lost. Some persons were burned, but the majority were drowned. When the morning broke hundreds of people looked out of windows or stood on the roofs of houses waiting for a helping hand and trembling for their fate. To add to the horror of the scene, rain fell in torrents and fire broke out in the refineries at the lower point of the town.

The coming week will be an "OT" One in Both Houses.  
WASHINGTON, June 5.—[By the Associated Press.] With the public interest concentrated on Minneapolis, only a smattering of news is to be had from Congress upon the proceedings of Congress this week, and in consequence it may be safely assumed that the proceedings of both Houses will be marked by apathy. In the Senate Mr. Vest will speak on the Free Wool Bill tomorrow, and Mr. Morgan answers Mr. Sherman's amendment on free silver coinage Tuesday.

In the House tomorrow a motion will probably be made to suspend the rules to non-concur in the Senate amendments to the River and Harbor Appropriation Bill, and order a conference. If time permits a motion will be made to non-concur in the Senate amendments to the Naval Appropriation Bill and send it into conference.

Mr. Hatch will attempt to pass the Anti-option Bill under suspension of the rules, but the chances for a quorum are so small that it is doubtful if he succeeds. The opponents of the Anti-option Bill will endeavor to block the track with the Legislative Appropriation Bill.

CREED IN ASHES.

A Large Part of the New Mining Town Destroyed.  
DENVER, June 5.—[By the Associated Press.] The business portion of Jimtown (Creede) was destroyed by fire this morning. A great many people are homeless. There were no injuries so far as reported.

The flames were started by an explosion of coal oil. In a short time the fire burned through the rows of frame buildings for the distance of a mile. Many houses were blown up with giant powder in attempts to stop the fire, but with no effect.

One hundred deputy sheriffs have been sworn in to protect the town against thieves. The total loss is estimated at \$1,000,000, with insurance of \$250,000.

Denver, Colo., June 5.—It is rumored that four persons perished in the fire.

Of Interest to Nurserymen.  
(Pomona Progress.)  
Nurserymen and dealers in nursery stock have experienced many vexatious delays in the shipping of trees and plants in such a manner as to lead them to the fact that a certificate as to the cleanliness of their stock was of no avail at the point of destination. Re-inspection has been the general order of the day, which, so the nurserymen claim, is an entirely unnecessary expense, provided the inspection was properly done at the point of shipment.

In conjunction with the meeting of the Farmers' Institute here there will be a meeting of nurserymen to consider ways and means of obviating this difficulty. The Horticultural Commissioners will also be present, and it is hoped that there will be a general representation of the nursery interests of the six southern counties to discuss the situation thoroughly, and to not only secure a more expeditious and equitable system of inspection, but also by simplifying matters to materially cut down the expense of inspection to several counties.

AN AFFAIR FOR AID.  
The citizens tonight issued an appeal to the public reciting the terrible destruction, great loss of life and destruction of property by the flood and fire, and requesting help in time of distress.

Many bodies bear evidence of meeting death from the burning oil. Some are burned beyond recognition, and several in such a terrible manner as to lead them without the least semblance of human forms. The loss in the county by washouts of bridges is enormous, as there is not a county or township bridge for miles that has not gone, and roads in every section are impassable. The Western New York and Pennsylvania Union and Titusville and Dunkirk and Allegheny Valley roads suffer great loss.

Almost constant rains during last month caused the earth to be so thoroughly soaked that it could hold no more, and the heavy downpour of Saturday and Sunday night caused the small streams to overflow their banks. About midnight Oil Creek began to rise rapidly and flood began to rise. Residents were aware of their danger, and not more than half of them managed to reach high ground. The suddenness of the rise of the water is explained by intelligence that the milldam at Spartansburg burst. It was at 2 a. m. that the horror of the fire was added to the misery of the people. A dull explosion was heard at that hour, and a flame fully 300 feet high pierced the inky darkness and threw a glaring light over the vast expanse of angry waters. It was the Crescent oil refinery, an fire, and never before did fire seem to spread with such lightning rapidity.

Pandemonium broke loose and panic reigned supreme. Thousands of people rushed pell-mell through the streets, tumbling and knocking each other in an aimless endeavor to escape from what they imagined to be the crack of doom. The fierce light thrown on the surroundings revealed appalling sights. On roofs and in windows of upper stories of houses in the flooded districts appeared men, women and children scantily clad and pleading for aid and succor. Clinging to the driftwood timber as they were being borne onward were scores of human beings, their white and terror-stricken faces, desperate struggles and plaintive cries for aid combining to create an impression never to be forgotten or effaced from the memory of the beholders.

The story of the destruction by the flames has already been told. Tonight the undertaking establishments of the city are turned into temporary morgues, and, with the exception of seven hearse and two children, all bodies recovered were taken there.

At a late hour the loss of life here is conservatively estimated at thirty-five. This is entirely within the city, while news from the tributary towns show that the city is a mass of charred embers, over which the waters rush with unabated fury. The streets are filled with crowds of wet, hungry, hopeless, despairing men, women and children, most of whom lost loved homes and all their property.

It is simply impossible to give the reader an idea of the horrible scenes enacted. Men with boats and ropes battled manfully against the current, and hundreds of people captives in their homes on account of the surrounding waters, were rescued. Fully fifty people are as yet unaccounted for, and at present it is impossible to count the number actually drowned and burned.

Five persons were grasping a piece of timber with the prospect of landing safely, in proximity to an oil tank when it exploded, and in the moment the men were enveloped in flames, and death came speedily to relieve their sufferings.

A mother with a babe clasped to her breast and clinging to a plank drifted toward the depot around which the water was rushing furiously. As both reached the point the suction was so great that it drew them in and they disappeared from view. Scores of cases of like fearful character are reported.

Other Coast Dispatches.—Sudden Death of an Old Resident of Orange County.—A Highlander Murder at San Francisco.

By Telegram to the Times.  
STOCKTON, June 5.—[By the Associated Press.] Nothing has been heard of County Recorder J. F. Mosley, who has been missing since last Wednesday. It now transpires that Mosley owes \$100,000 and issued forged notes on which he secured over \$60,000. He was engaged in large land deals and borrowed money to carry him through. So far nine notes have been discovered to be forged, six for \$6750 each, signed F. W. S. Hickey, and three for \$7000 each, signed A. H. McBride. Both men pronounce the signatures forgeries.

He gave three checks to one piece of property in Stanislaus county and asked the holders not to record them. Only one, D. S. Rosenbaum, recorded his purchase and the others are losers.

For several weeks before his departure Mosley borrowed large sums of money, paying big premiums for the accommodation. He left Woodland a week ago with \$80,000, most of which was to be paid in discharging mortgage of his friends, who had every confidence in Mosley, lost money and one of them is ruined financially.

DROPPED DEAD.

Sudden Death of an Old Resident of Orange County.  
SANTA ANA, June 5.—[Special.] George C. Mack, an old and respected citizen of Orange county, dropped dead of heart disease on the street this evening while on his way to the Brunswick Hotel from the city meetings. Mr. Mack was born in Vermont. He was 62 years old and has lived near Westminster for sixteen years. He was one of the original settlers in that neighborhood and was identified as one of the leading men of the county. He has one son in Oakland and one in Ochoa, Ariz. He was a member of the Orange county School Board. He was a good Christian worker. He was stopped in the city attending the Mills revival meetings.

A HIRED ASSASSIN.

He Kills His Man—A Highlander Murder at Frisco.  
SAN FRANCISCO, June 5.—[By the Associated Press.] A Chinese named Hoey Wing was shot and killed on the street in the Chinese quarter this evening by a fellow-countryman named Loy Lung. Many persons were on the street in the locality at the time. The assassin approached from behind and fired three shots, all of which took effect, the bullets passing through the man's body. There is little doubt it was a highlander affair and that Lung was paid to commit the crime on account of Wing's supposed role in the rescue of a Chinese girl from a disreputable house. The murderer and several other Chinese were arrested.

AN INUNDATION AT MEADVILLE.

MEADVILLE (Pa.) June 5.—This entire section was swept by the worst floods in its history last night. In this city Mill Run overflowed its banks and swept the business portion of the city, demolishing a dozen or more buildings and entailing an estimated loss of \$150,000. The loss throughout the county cannot be estimated. Bridges were washed away and scarcely a passable road is left in the country. The damage to growing crops is heavy. No casualties are reported in the city.

ST. PETERSBURG, June 5.—Fire in the town of Kovva destroyed 800 houses, depriving 2000 persons of homes.

A Novelist in Trouble.

LONDON, June 5.—Sir Gilbert Campbell, the novelist, has been arrested, charged with defrauding artists.

## SPORTING NEWS.

The Bunnal Election of the Athletic Club.

The Kennel Club Will Also Elect Officers This Week.

Solly Smith and Dal Hawkins to Have Another "Go."

Amateur Baseball Notes—A Fast Trotter Purchased by a Los Angeles Man—Marvin's Stride This Season—General Sporting Notes.

The local sporting situation is very quiet. Of course the success of the Los Angeles baseball team is a factor in everything to talk about, and the result of each game is closely watched. The club will be back next week, and that will live matters up to a certain extent. It is also possible that a tennis match, or something of that kind, may be worked up to keep up interest in outdoor sports, but nothing has been decided upon as yet.

The annual election of the board of directors of the Los Angeles Athletic Club will be held on Wednesday evening next. The following are the nominees: E. W. Pridham, James Murray, John S. Thayer, C. P. Lyndall, J. D. Wiley, W. F. Kennedy, J. P. Percival, W. W. Hitchcock, W. F. X. Parker, J. J. Woodworth, C. M. Baker.

The annual meeting of the Southern California Kennel Club will be held tomorrow evening at 8 o'clock at the usual place, corner of First and Spring streets, when the election of officers for the ensuing year will be held. The nominations are as follows: For president, J. F. Holbrook; for vice-presidents (five to be elected), Tony Bright, T. S. Casey, J. Kiefer, A. P. Robinson, Dr. W. A. Weidner, R. Vandervoort, Frank W. Ingalls and John Schumacher; for treasurer, E. K. Bencherly; for secretary, C. A. Sumner; for delegate to New York, James Watson.

BASEBALL.  
Yesterday forenoon the Times baseball club toyed with the Express aggregation for a couple of hours, literally wiping up the earth with the South Main street combination. Twenty-nine "Times" men pranced around the circuit, while all the opposition were allowed to cross the rubber, by way of encouragement. The respective batteries were: King and Stevenson for the Times; and Parrish, Morley and Crawford for the Express.

MAY HAVE TO REPEAT THE LESSON.  
It is possible that Solly Smith of Los Angeles, the "pocket edition" of John L. Sullivan, will again be called upon to whip Dal Hawkins, before he is allowed to soar any higher. The San Francisco Examiner of Saturday says of the matter:

Dal Hawkins, the bantam bruiser, who was recently defeated by Solly Smith of Los Angeles, is after a return match. His manager has deposited \$250 with the vice-president of the California Athletic Club as earnest that Hawkins will meet Smith for \$500 a side and the largest purse that can be obtained. Smith's backers have not as yet covered the forfeit, the reason advanced being that Smith has promised to fight at the Pacific Athletic Club if Bobby Burns, who recently defeated Cal McCarthy, can be induced to come to San Francisco and meet him. As Burns, in reply to a telegram from the club, has sent word that he will require a purse of \$4000 and "all his expenses," it is probable that Smith will have to turn his attention to Hawkins.

GENERAL SPORTING NOTES.  
Fairview has been declared out of the Suburban and Cassius, it is said, will also be scratched.  
Alexander Jacques, champion faster of the world, has arrived in New York, and challenges any man in America to fast for \$2000 a side.

Appolon, the champion weight lifter of France, now in New York, wants to wrestle the winner of the Ernest Roeder-Louis Lawrence match.  
R. L. Ede, the diminutive English cyclist, has succeeded in breaking all the existing records, up to 100 miles, and completely eclipsed Osmond by making 24 miles in one hour.

The number of horses in the United States, according to the last census, is estimated at 15,493,140, and as they are valued at \$85.01 per head, they foot up to the very respectable sum of \$1,007,598,686.

The two-year-old bay colt, Lew Martin, by Gano-Armeda Howard, has been purchased from Mrs. C. Thomas by L. H. Titus of this city for \$2500. The colt was a winner at St. Louis and promises to develop into a high-class race horse.

H. M. Tonner of North Ontario has placed his English setter, Fred W., by Count Noble-Spark, and the sire of Tennessee Charley, in the stud. The pointer, Ah Sing, by Kan Koo-Drab, one of the best heavy-weights on the Coast, is also placed at stud.

A modern compilation of engineering maxims states that a horse can drag, as compared with what he can carry on his back, in the following proportions: On the worst earthen road, 3 times; on a good macadamized road, 9; on a plank, 25; on a stone trackway, 38; and on a good railway, 54 times as much.

A London cablegram says that Ted Pritchard is matched to fight Jim Hall in London within three months for \$5000 a side and the winner to have a good macadamized road, 9; on a plank, 25; on a stone trackway, 38; and on a good railway, 54 times as much.

A very comprehensive work on lawn tennis has been prepared by W. H. Wilberforce, the noted English player. The author, in a bright and readable manner, traces the early history of the game, tracing its development through the various styles of play up to date. His explanations of the technical points of the game, and of the various strokes, cannot fail to benefit all players.

The following papers are known to be in this State and may be seen in the races this fall: Almost Patchen, 2:18; Allanah, 2:18; Charley C, 2:18; Hummer, 2:18; Silkwood, 2:18; Hattie B, 2:18; Tom Ryder, 2:18; Belle Button, 2:18; Dr. Swift, 2:20; Lily C, 2:20; George N., 2:22; and Howard St. Clair, 2:22. Some of these horses may be disabled or are retired to the stud, but the owners who are looking around to see what pacers they will have to meet this year on the California circuit will have a pretty good guide to follow by remembering the above list.—Breeder and Sportsman.

## NEW HOSPITAL MOVEMENT.

A meeting to be held at the Y.M.C.A. parlors this afternoon.  
A meeting will be held at the Y.M.C.A. parlors this afternoon at 3:30 o'clock, to which all the ministers of the city are invited, to consider a proposition for the establishment of a hospital in this city. The meeting has been called by the Executive Committee

of the Mills meetings, and it is desired that there shall be a full attendance.  
There is no question but what a hospital conducted on broad and liberal plans is one of the necessities of the city. Hundreds, even thousands of invalids come every year to Los Angeles. Many of these people have wealth, and are able to pay for what they need. Others have expended their all in getting here, and many of them endure great suffering for want of proper medical attention, when if it could be had they might be restored to health.  
The meeting this afternoon will be for the purpose of formulating plans for the work. It has been suggested that the proposed institution may be established on a basis by which its benefits may be taken advantage of by all worthy subjects, those who are able to pay doing so at a moderate rate, while free wards would also be provided. It has also been suggested that a training school for nurses might be run in connection with the hospital. Other suggestions have also been offered, and will probably be discussed at the meeting this afternoon.

## A LEASE DEFINED.

A Document in Which Many Words Are Used to Say Very Little.  
[Chicago Tribune.]

"A lease, my boy," said the old gentleman in reply to a question: "a lease is a document that is most wonderfully constructed. A lease is a contract that is not lived up to by either party and generally not fully understood by either."

"It requires more words to say a little about a lease, my boy, than there are in one of Shakespeare's plays, and according to law the whole affair is made as involved as a Chinese puzzle, the only thing at all equaling it in that way being an indictment of forty-seven counts, frequently drawn in accordance with the statutes of the great State of Illinois. I have known a man to be crippled for life by the mere weight of an indictment accidentally dropped on him. It is so cumbersome and involved that it frequently stops a cog and seriously clogs the machinery of the law."

"But to return to leases. You see a real estate agent and he tells you a house or an office. You understand it, and he understands it, and all is clear sailing until the lease is made out. You look it over and then tell him that you never carried away or destroyed a house in your life and did not know you were suspected of such a thing. He informs you that this is merely a legal formality and does not mean anything. You find a lot of other formalities and finally say:

"Why I thought the arrangement was that I was to have the place for 50 a month, keep it in repair, and get out if I failed to pay the rent."  
"That's it exactly," he replies.  
"Then you wonder at the ingenuity of the man who can use fifteen hundred words to say so little. But you sign the lease, take it home, study it, some more and discover one great truth. It is largely devoted to specifying what the party of the first part does not have to do and what the party of the second part does have to do. That's a lease, my boy."

## How Cleveland Might be Presented.

In the interest of "new politics," the New York Sun (Dem.) prints in advance this speech that "perhaps" will be delivered in the Democratic National Convention:  
"I arise, sir, to propose the name of the illustrious statesman, patriot, prophet and economist, Grover Cleveland, of New York. [Applause from the Oklahoma delegation.] I need not mention, time would fail me to mention, his many, his ample, his splendid titles to this distinction. He is the only candidate who can get no vote from the delegation of his own State. He is the only candidate against whom South Carolina protests and for whom her electoral vote will not be cast. He is the only candidate who can lose us North Carolina."

"He is the only candidate who can make West Virginia doubtful. He is the only candidate who can insure us the loss of New York. But, Mr. Chairman and gentlemen, who else can command the united support of Oklahoma and the District of Columbia? What other name can we present without alienating the votes of the states and faithful allies, the Mugwumps of Massachusetts? I am not of those who believe that the party exists for the purpose of representing certain principles. No, sir; it exists for the purpose of nominating a certain man, and I would rather be defeated with Grover Cleveland than elected with the best man that ever lived. I trust that the convention will listen to the delegates from the Republican States. They are absolutely unimpaired in their votes today, ought to have a double strength, because next fall they will not count. Listen not to the dictates of the cold and calculating prudence which insists that he cannot be elected. To vote for the nomination of Grover Cleveland is honor enough for any man. I must remind gentlemen that they are here to nominate not to elect. If they will consider the distant and alien question of defeat, let them remember that in Grover Cleveland they have a candidate who is used to defeat." [Long applause.]

## A Meal Grant Enjoyed.

[Chicago News.]  
An unpublished story of Gen. Grant was told yesterday at the Grand Pacific by Paul Gores:  
"I was steward at the Palmer House," he said, "when the ex-President stopped there on his return from the top of the world. One noon I was all but stupefied at seeing General Grant creep in from the kitchen door, as though escaping from some one. I am sorry to trouble you," he said, "as though asking a great favor. But may I have a little corned beef and cabbage? 'Why certainly,' I replied. 'But shall I not send it to you in the dining room?' 'No,' he answered. 'I'll eat right here if you let me sit down at this table.' So I cleared away a place on the rough board table, where the cook had been fixing the meat, drew up a stool and the way he got away with that corned beef and cabbage made my eyes bulge. When he had finished he laid down his knife and fork with a funny sigh of satisfaction, put one hand on my shoulder and said, 'young man, I suppose you don't care for that at all, but if you had had to eat what I have for the past few months it would taste like a dinner for the gods.' The poor old fellow had dined with everybody from the Queen down, and that cabbage in my kitchen did him more good than all the rest together."

A TRAVELING

Salesman whom we have every reason to believe is a friend of the house, said he would like to criticise the idea of advertising the granting of vacations to all the employees on full pay, as charity should not be advertised. It would, in his opinion, be better for the employees to do that. In the first place it is not charity. They do not ask it. They do not need it. They would not accept it. For faithful work, for good intentions, for good motives only, the granting of vacations on full pay, and pay in advance is given. We have the best force of salespeople we ever had; they are all good, and are carrying out the wishes of their employer, and it is in recognition of good work that vacations are given on full pay. No other dry goods house in this city does this. Another question was asked, "Why do you advertise so much about your methods and so little about prices." It is to call attention to a point different from any one else and, to be frank, to overcome the influence of a couple of our salespeople. One was discharged for using vile language in the house and for making insinuating remarks in the presence of the lady clerks, and the other for total incompetency and incivility to customers. They threatened vengeance and for two years this has been going on, and strange to say they are still employed by rival merchants who have by their silence encouraged their methods. If this had not been carried to an extreme this reference would not have been made. We have been particular to advertise that no employee would be allowed under any circumstances to speak ill of another house or their employees. They would be discharged at once for so doing. It will not be tolerated. It is not competition. We have been particular to advertise that no employee would be taken from a rival merchant; neither would they be figured with while in the employ of another house. We have been particular to say nothing against the methods of another house, as we have all we can do to attend to

## DR. WOH,

### The Eminent Chinese Physician.

No Opium or Poisonous Drugs are used in any Practice.

Exotic and Medicines of Absolute Purity obtainable on hand and for Sale.

Dr. Woh's life work has been from early youth one of persistent and untiring observation, study and investigation, as fully as lay in his power to perfect himself in the branches of the art of healing human sickness and disease. Born in China, of illustrious parents, of a family whose ancestors have been for generations deservedly renowned as leading physicians. Dr. Woh naturally followed in the footsteps of his fathers. In China he has practiced his profession for several years, being at one time a physician at the Imperial Hospital, and in America for a long time. His great number of patients, his wonderful and many cures, and the great list of letters from grateful and thankful persons now prove him to be a remarkable and successful healer of sickness and a disease.

For a long time I have been suffering with bladder and kidney troubles. No doctoring or medicines seemed to do me good. I consulted the best physicians and surgeons in Los Angeles city. They gave me morphine and drugs, but no relief could I obtain. After suffering great pain and having my passage almost entirely clogged, I, fourteen days ago, began using Dr. Woh's medicines. Today I am perfectly well. I do consider Dr. Woh the most successful physician in Southern California. C. A. STEIN, 80 and 98 S. Main St., Los Angeles, Cal. October 18, 1891.

I have tried many doctors for heart disease, but have derived no benefit until Dr. Woh, the Chinese physician, of Los Angeles city, prescribed for me.

At once I began his treatment, and can now certify that he has done me great good. I recommend Dr. Woh to my friends as an able doctor. F. R. KIRK, Justice of the Peace, Burbank, Cal.

Dr. Woh has hundreds of similar testimonials, but space alone prevents further publication of them here.

Dr. Woh is the oldest and best-known Chinese Physician in Southern California. He has many cures have been remarkable, involving Female Troubles, Tumors and every form of disease.

All communications will be regarded as strictly confidential.

Free consultation and all advised are cordially invited to call on Dr. Woh at his office.

## DR. HONG SOI,

Physician and Surgeon.

317 South Broadway, Los Angeles, Cal.

DR. HONG SOI has graduated and received his diploma from the medical schools and Universities in Canton, and made his first professional practice for many years in the hospitals of Canton and Hong Kong, China. He is the sixth of a generation of doctors in his family and has made it his life's work to study the diseases of the human body. The doctor has had wide experience as a physician during his long stay of six years in Los Angeles has made many skillful cures. The doctor cures CONSUMPTION, RHEUMATISM, ASTHMA, CATARRH, SICK HEADACHE, INDIGESTION, NEURALGIA, WAKEFULNESS, NERVOUS TROUBLES, AND ALL DISEASES that the human body is heir to, by this herb medicine. He prepared every day. It would be a benefit to those who are in trouble with sickness to give a fair trial; his terms are very reasonable. The doctor uses a thousand kinds of medicine which are directly imports from China. Hundreds of voluntary testimonials from patients who have been cured by the doctor can be shown at his office. Please remember the above address and press this advertisement.

To Whom It May Concern: I have been sick for nearly two years by suffering with great pains in the back, head, coughing and weakness, and unable to get out from bed some time. About three weeks ago, having called on Dr. Hong Soi for consultation, he pronounced that I was afflicted with kidney disease and lung troubles. He inquired me locating how and where it pains me, and also explained how and when I could get better. At once I began to try his medicine, which I found it to be a great help to me. I took his medicine for three weeks and now I am well. This is to certify that Dr. Hong Soi has cured me of my sickness, and I am cheerfully recommending him to the public. Yours truly, MRS. M. J. TEMPLE, 380 Winston St., Los Angeles, Cal. Dated March 3, 1892.

To Whom It May Concern: I have been sick with headache, pain in back and shoulder and been pain in my lungs. I tried two doctors and they said I had the la grippe. Not long satisfied I came to Dr. Hong Soi. He told me where there were my pains, and I took a few doses of his medicine and found it improved me very much, and after taken five doses I find myself stronger once more. Yours truly, MITCHELL, South of Town Eight Miles Los Angeles, March 5, 1892.

For three years I was a sufferer with rheumatism and kidney troubles and was unable to walk. Was very much bloated and suffered excruciating pains. Five doctors I treated me and failed to benefit me. They have given me up as incurable. I was recommended to Dr. Hong Soi for treatment. I am glad I had went to him. He cured me in a few weeks time. WILLIAM GOBLE, 1014 First Street, Oakland, Cal. Dated September 14 1891.

## SAN BERNARDINO.

At the opera-house yesterday morning Mr. Wells preached upon "Human Personality, or How We Find Ourselves," having laid aside for a time the discussion of Unitarian belief. The question is not Hamlet's "To be or not to be?" I am and shall continue to be, and it is with this understanding that we must pursue our course. Knowing that he is, and shall continue to be, the true man who keeps track of himself. There are two of most of us; the lower filled with degrading tendencies, and the higher struggling upward and endeavoring to overcome the lower. But we are constantly losing our better selves in selfishness, in vice, in carelessness and in many ways. Therefore, the chief business of life is to find one's self and bring him back to better things. Men have mistaken the whole business of religion. It is not to find a depraved and lost soul. It is to bring forth that which is in us, the better self, and find himself.

## PIONEERS' MEETING.

At the meeting of the pioneers last Saturday the matter of a free public road was further discussed, the sentiment being in favor of keeping the matter going until the road is secured. There was also further expression respecting the proposed withdrawal of the San Bernardino Mountains from further settlement with a view of making a public park and preserving the forests. The Pioneer association has been organized, and the matter of preventing Chinese immigration was also discussed, and all were in favor of the Exclusion Act and its strict enforcement. Some action was taken on Wednesday for the celebration of the Fourth of July.

canvass is being made by the friends of Mrs. Kendall. It is claimed that the schools in their present grades and efficiency. The Observer refused her the privilege of publishing a card, and so on Saturday she sent a circular letter to every voter in the district, denying all the charges made and advocating a liberal policy toward the schools. There would seem to be some room for economy to get in work when bonds for \$3750 are needed to build a \$3000 school-house, and when for every dollar spent on teachers' salaries 50 cents is used for "incidentals." Democracy, Unitarianism, Methodism, woman's suffrage, the college and various other irrelevant issues are mixed up in the campaign, and the temperature will run high. On Tuesday every available topic has been already engaged for taking voters to the polls. Whichever way things go it is gratifying to see the community take such a lively interest in school matters.

## ORANGE COUNTY.

Evangelist Mills's Great Work at Santa Ana.

A Spiritual Awakening that has Never Been Equaled.

The Church Crowded to the Doors at Every Service.

An Eloquent Discourse Saturday Evening and Two Powerful Sermons Yesterday—The Programme for Today.

## SANTA ANA.

There is a spiritual awakening, not only in Santa Ana, but in all Orange county, that has never been exceeded in this locality before. There never has been a time before when so many people who do not confess Christ, have gathered together in one body in Santa Ana to listen to the inspiring words of a master of the pulpit.

SATURDAY EVENING'S SERVICE.  
Mr. Mills preached a powerful sermon Saturday evening from the text, "Behold I stand at the door and knock," to a congregation, assembled from all over the county, that numbered 2000 or more. Before the song service had concluded all the seats were filled, and many were standing near the door while others were left in the hall on the outside.

Commenting upon man's indifference to God, Mr. Mills said: "God has been trying to get into the hearts of men for centuries. He tries to find your conscience, but the trouble is you will not admit him. He knocks at the door of your hearts; you feel his presence but will not consent to let him come in. The only chance he has to benefit you is when you surrender yourself to him. If you do not, he will not enter your heart. You will not unbar the door and admit of His presence, how can you expect Him to benefit you. The trouble with you is that you do not try to help yourselves; neither do you clear the way for a friend to help them. Be consistent. If you want to be a better man, a purer woman, let God work in you. One who is able to help you. When you feel Christ knocking at your heart admit Him in."

After speaking of man's understanding of the work of God and its various influences he spoke of the church of God as being the only thing that God is trying to do. "I do not believe the man lives who does not in the bottom of his heart believe in the church of God. He may not believe it, but he does. Your life would not be worth a cent tonight on your way home if it were not for the church. There would never have been any homes and a prosperous people if it had not been for the church. What has advanced the purity of woman? My glorious mother—the church of God."

"Earth has no sorrows that God cannot heal. Make a sign to Him that He may know He can save yet all recognize that Harrison has made an excellent President, and either his nomination or that of Mr. Blaine will receive the full party vote.

derful meeting held since the beginning of the series. Men who have never been known heretofore to entertain a feeling in public for the welfare of their souls assembled in the center of the hall and seemed to enter into the spirit of the meeting. Some of them arose and asked an interest in the prayers of a praying people, while others signified their interest by either rising to their feet or signing a card and sending it to the platform.

A minister said to the reporter: "It was the most wonderful meeting I ever saw. Several hundred men, grown men, leaning forward in their seats eager to hear every word, while others signified their interest by either rising to their feet or signing a card and sending it to the platform."

Today the business men will close their places of business between the hours of 9:45 a.m. and 12:00 o'clock; 2:45 p.m. and 5:00 o'clock and 8:00 p.m. The day will be given over to religious work, and from the interest that is being manifested now great good will no doubt be the result.

The series of meetings will close with the evening service tomorrow, but in all probability night meetings at least will be held in the churches by the pastors during the week.

At the men's meeting were notified among many others the familiar faces of I. N. Hattery, Walter Burton, Frank Seymour, George Minter, Victor Montgomery, George Freeman, Dr. A. W. Plummer, A. ## OLD FORT MOHAVE.

The Desecration of an Old Landmark.

[Needles Eye.]

The desecration of the past few days of the contents of upward of seventy graves at Fort Mohave almost removes the last vestige of one of the oldest forts of the Southwest, for all that remains of the old fort is a few buildings, which have been remodeled and converted into school-rooms for the education of the Indian children, and the place itself renamed to that of the "Herbert Welsh Institute."

The trouble with the desecration has been in charge of Lieut. Charles Crawford of Fort Wingate, who informs us that by order of the Government the remains of all the graves at the abandoned forts in the United States are to be removed to their homes in a lasting manner.

The people left with a very kind feeling for the drive of the visiting medical profession to the Ojai on Thursday was a rare treat, and the people of that valley showed their hospitality in a lasting manner.

### PERSONALS

Miss Fannie D. Cook of No. 611 Temple street, after an absence of ten months, arrived home by steamer yesterday from an extended trip to the East, returning by way of Montana, Washington and British Columbia.

Mrs. Frank D. Owen, who has been in ill-health for some time past, leaves for Berkeley today to visit her parents.

### A Sad Case.

Last evening James Liddell, who lives at No. 231 East Thirty-third street, called at The Times office and reported that his son had been sent home from the Whittier Reform school in a dying condition, and that the doctors had said that he could not live more than a few hours longer. Mr. Liddell was greatly distressed over his affliction, and could hardly make a coherent statement.

From what he said, however, it appears that the boy was committed to Whittier on the 6th of August last, where he has been ever since. Mr. Liddell said that a great injustice had been done his son, who was accused of stealing three old rotten sacks from a field. The real thieves, he said, had escaped, while his boy, who he claimed was innocent, was unjustly punished, and he wanted to see justice done him while he lived.

The bereaved father could give no particulars of the case.

### Impromptu Prize Fight.

About 10:30 o'clock last evening an altercation took place in the Vienna Buffet. The two principals and their friends adjourned to the back room of a saloon on Main street, and there proceeded to doff their outer garments.

It was a 135-pound man against a 210-pound man, the odds being in favor of the latter, but on time being called the lighter man led off with a heavy blow on the nasal organ of his opponent which drew large quantities of the ruby, which so discouraged the heavy-weight that he declared the fight off till he had time to reduce his avoirdupois.

To prevent a mare from kicking, buckle a strap around her ankles. To the strap attach a rather light chain, say ten or twelve inches long. This will not mutilate the animal, but when she kicks will give her an educational stinging that will spoil her fun. I have never known this device to fail.—*American Cultivator.*

### RAILROAD AFFAIRS.

An Expert's Opinion on the Salt Lake Road.

Will be an Independent Line from San Francisco.

Parallel Roads Traversing the San Joaquin Valley.

To Penetrate the Territory Claimed by the Southern Pacific—The Democratic Special to Chicago—Notes.

The San Francisco Chronicle of Saturday says: Bishop Lorin Farr of Ogden, Utah, has been spending several days in the city. The Bishop was the man who, in connection with Brigham Young, laid out Ogden. He moved his families up from Salt Lake City and became the real founder of Ogden. Besides being an important man in the church councils and a member of the Legislature for twenty-eight years, Mr. Farr is known throughout the intermountain country as a railroad contractor and a man who stands well with the Union Pacific and Central Pacific Railroads. He was asked yesterday what he thought of the new San Francisco and Great Salt Lake Railroad. "Well," said the Bishop, "I think the men behind the scheme mean business. I know that they have had men at work in Southern Utah for some time. I have come to the conclusion from what information I can gather that it is the intention to enter Utah south of the lake and continue north to Salt Lake City. If my opinion is correct, and I think it is, all this about the Rio Grande being interested is only talk. What would the road be built north to Salt Lake City for, and for forty miles run along the Rio Grande? It is the intention to form an alliance! You see, if that was the plan the new road would strike the Rio Grande farther south. The new company has spent considerable money in Southern Utah already. The great trouble there was the lack of water. The experiment of artesian wells has been found, and I understand that a rough survey has been made around the southern portion of the lake." Bishop Farr thought all the trouble in the Central Pacific west from Ogden, and as he always takes a great interest in railroad matters, his opinions are usually good ones.

**SAN JOAQUIN VALLEY RAILROADS.**

The Oakland Enquirer says: "A party of surveyors is running a line through the San Joaquin Valley for the route of a proposed railroad and the survey is based on the novel idea that instead of getting away from the Southern Pacific it is better to keep as near it as possible. So the line of the proposed new railroad follows along the line of the Southern Pacific through all the towns on the east side of the valley and generally at a distance of a quarter of a mile. There is shrewdness in this, though it might not appear so. A few years ago it was supposed that when competing railroads should come to the building of the San Joaquin Valley they would be either on the west side or much further east than the Southern Pacific. But the latter corporation, in its eagerness to cover the whole field and prevent the possibility of competition, has now got systems of road well under way both on the west side and on the extreme east. Consequently the very best thing a new road could do would be to parallel the Southern Pacific and take advantage of the population centers already built up, like Bakersfield, Tulare, Fresno, Madera, Merced and Modesto. As an exclusively local line a parallel road competing with the Southern Pacific would not pay, but it is assumed that it will be a part of some transcontinental road, and under those circumstances it ought to do well. If properly managed it would stand a better chance than the Southern Pacific for obtaining local freights, for that company has made itself unpopular."

**SCRAP HEAR.**

The San Francisco Call says that the incorporation of another company for the purpose of building a line down the San Joaquin Valley to Los Angeles will take place within a few days.

W. H. Martin, who is connected with the Powell-Jackson cable railroad system of San Francisco, was on Friday elected a director of the San Francisco and Great Salt Lake Company.

Owing to the death of Mr. Hobart and the absence from the city of Mr. Hayward, the meeting of the directors of the new overland line in San Francisco has been postponed for a few days.

General Agent Hitchcock, of the Union Pacific passenger department, will have charge of the special train that will carry the California Democratic delegation to the Chicago convention. Mr. Hitchcock declares that he will have the finest train of its kind that ever left the Oakland mole.

The young business men of California are about to form an auxiliary to the Traffic Association. The organization will have no politics, but will support whichever party shows a desire to reduce the present heavy transportation charges. A meeting for organization will be held in San Francisco this week and admission will only be possible by invitation.

**THE WORLD'S FAIR.**

Notes of Interest About the Great Exhibition.

The California World's Fair Commission is just in receipt of a letter from Director-General Davis at Chicago with reference to the application of the commission for the privilege of erecting an adobe house for the use of the California Board of Lady Managers, and which was also to be used as a place for the sale of Spanish, Indian and other curios from California. The letter reads in part as follows: "With reference to the project of erecting a typical adobe house for the Board of Lady Managers of California, I have to say that as this project involves the sale of the articles which will be exhibited in this building, a concession from the Committee on Ways and Means will have to be secured by the persons who propose to make the exhibit, for which a percentage will be charged by the committee. With reference to the location of such a building, I can hardly give a satisfactory reply until it is decided whether the Ways and Means Committee will grant the right to do the business applied for. Please advise the persons interested in this matter to make formal application, stating what they propose to sell and how the business will be conducted, and I will place the matter before the Committee on Ways and Means and the question of location can be settled later on."

California is being largely called on for orders in the line of flower-plants and shrubs for use in decorating the World's Fair grounds at Chicago. According to official advice so far received the landscape department has ordered from the nursery of John Rock, at San Jose, 224 flower plants; from the California Nursery Company, at Niles, 416 specimens; from Charles F. Eaton of Santa Barbara, 880 specimens; from the Germain Fruit Company, at Los Angeles, 820 specimens; from the Sherwood Hall Nurseries, at Menlo Park, 487; making a total of 2687 specimens and representing 74 varieties.

A facsimile reproduction of the famous Casa Grande which stands in the southern portion of Arizona will be built on the World's Fair grounds by that Territory. The building will be used for housing the Territorial exhibits. The old structure, which was built in the sixteenth century, is only fifty feet square, yet stands six stories high.

The force of men now employed on the World's Fair grounds at Chicago averages \$500 a day.
